TABLE TENNIS FOR YOU  
卓球をあなたへ

**Centrefold 25**

# CENTREFOLD 25

25<sup>+</sup> surface | ready assembled | super compact system

Our top of the range table is the Butterfly Centrefold 25. It has been selected for the World Championships and many other international and national competitions. The Centrefold 25 is a heavy duty match table used by top clubs, sports centers and for international match play. Its main advantage is the 25<sup>+</sup> top (see info box).

This ingredient added to the surface increases the consistency and reliability of the bounce of the ball for both topspin and backspin shots so producing excellent playability. It reduces skid and gives players every confidence to play their shots. The top is protected by a strong steel frame with magenta corner pieces. The under-carriage is one of the strongest available. It incorporates 4 large Steinco 125 mm strong wheels<sup>1</sup>, 2 of which have brakes. This guarantees both firm standing and easy movement. Transportation and storage is easy with the unique space saver system which makes folding and rolling the table simple and safe. The table tops fold together at the center<sup>5</sup>, reducing the width in the storage position to only 20 inches or 51 centimeters. A unique easy to use safety system<sup>3</sup> prevents the table from opening and closing accidentally. A perfectly level playing surface is achieved by use of the height adjusters<sup>2</sup> on all four of the end legs.

The Centrefold 25 table is one of the few top match models which is wheelchair friendly.

*Parking dimensions: W 1525 mm × H 1590 mm × D 480 mm*

*Weight unpacked: 127 kg*

*Surface: Available in blue and green*

*Made in Germany*

## 25<sup>+</sup> Surface – a very special detail

The 25<sup>+</sup> surface provides a finer grain compared to regular table surfaces, which not only results in a constant ball bounce and increased durability, but also reduces skid. This Technology was optimized for the requirements of cell-free balls. The clean imparting of spin onto the ball creates a playing experience of the highest order.

**Used with: Centrefold, Octet, Europa models.**

Octet 25

# OCTET 25

25<sup>+</sup> surface | flexible | space saving

The Butterfly Octet 25 mm is a top competition table that provides all the benefits of the 25<sup>+</sup> top (see info-box on page 4) combined with an undercarriage with 2 separate halves and 8 wheels. The top is protected by a strong steel frame with magenta corner pieces. It is supported by a heavy duty undercarriage. A perfectly level playing surface is archived by use of the height adjusters<sup>4</sup> on all four of the corner legs.

The Butterfly Octet 25 divides into two halves, both fold for easy movement and storage. Each half has four strong independent Steinco wheels<sup>3</sup>. The brakes and locking mechanism prevent accidental opening or closing of the table<sup>2/6</sup>. The table stores away economically with the two halves fitting together. The total width of the table for storage is only 63 cm. For multi table use the tables can be rolled together for even more compact storage<sup>5</sup>. Another popular feature of the table is the playback facility where one half can be set in the storage position, the other in the play position with the net and post set in place. This provides the opportunity for extra practice when a partner is not available. The table requires assembly and clear instructions are provided.

The Butterfly Octet 25 is International Table Tennis Federation approved, and holds a European safety (EN 14468-1) certificate.

*Parking dimensions: W 1525 mm × H 1630 mm × D 560 mm*

*Weight unpacked: 118 kg*

*Surface: Available in blue and green*

*Made in Germany*

Europa 25

# EUROPA 25

25<sup>+</sup> surface | ready assembled | easy to transport

The Butterfly Europa 25 mm table has been used for many international tournaments throughout the world over the last 20 years including the European Championships. It is selected by many national associations for their championships. The Butterfly Europa 25 is solid and robust. It is the most suitable table for clubs where the tables stay in position permanently or where storage is very limited <sup>5</sup>.

Its main feature is the 25<sup>+</sup> surface (see info box page 4). It is also the best table for competition where the equipment needs to be moved from one venue to another. The top is protected by a strong steel frame with magenta corner pieces. The table is supplied in two halves. Each half has four steel legs which make the table very solid and stable. The legs fold easily <sup>2/6</sup> into the top for economic storage. This table takes up the minimum space for storage – 15 cm in width <sup>5</sup>. Each half has two wheels inserted into the center <sup>1</sup> so that the table can be rolled away.

The Europa 25 is ready assembled for play, is approved by the International Table Tennis Federation and holds a European Safety certificate (EN 14468-1).

*Parking dimensions: W 1525 mm × H 1390 mm × D 150 mm*

*Weight unpacked: 99 kg*

*Surface: Available with blue or green surface*

Space Saver 22/25

# SPACE SAVER 22/25

Ready assembled | super compact system

The Butterfly Space Saver 22 and 25 is one of the most popular match tables in the Butterfly range. It is suitable for tournament and club play.

With its 22 mm and 25 mm surface the Space Saver is in use of hundreds of clubs, sport centres and schools. The top is protected by a strong steel rim with magenta corner pieces, supported by a steel undercarriage which has 4 wheels, 2 of which that have brakes<sup>2</sup> for use in the playing and storage positions. A perfectly level playing surface is guaranteed with height adjusters<sup>3</sup> on all four legs. Transportation and storage is easy with the unique SC folding system<sup>1</sup> which makes folding and rolling the table away simple and safe. The tops fold together at the centre, reducing the width for storage to on 56 cm. A unique safety system<sup>4</sup> prevents the table from opening and closing accidentally.

The Butterfly Space Saver is one of the few match tables which is wheelchair friendly. This table is delivered ready assembled so that all that is required before using the table is to take off the packaging, roll the table out and fit the net and post set. The Space Saver is approved by the International Table Tennis Federation for use in competitions. It has a European Safety Certificate (EN 14468-1).

*Parking dimensions: W 1525 mm × H 1590 mm × D 510 mm*

*Weight unpacked: 93 kg*

## Net Set Europa

ITTF approved, durable metal posts, sturdy, easy to use hand screws with black net textile. Net measurement included.

*Material: Metal, net textile made from nylon*

*Made in Europe*

## Net Set National League

ITTF approved, durable and affordable metal posts with functional hand screws. Black net textile, measurement included.

*Material: Metal, net textile made from nylon*

*Made in Europe*

## Net Set Elite Clip

Affordable metal posts with spring clip for easy handling. Ideal for every day use. Black net with net measurement, practical carry bag included.

*Material: Metal, net textile made from nylon*

*Made in India*

## Match Scorer

Functional score board for team matches.

*Dimensions: W 280 × L 445 × H 250 mm  
(H hanging 570 mm)*

*Material: Plastic  
Made in Europe*

## Point Scorer League

Exceptional design in a sturdy, blue carton container. Secure stand, easy & functional setup and use.

*Dimensions: W 280 × L 450 × H 240 mm*

*Material: Plastic  
Made in Europe*

## Point Scorer Duo

Two point scorers in a single, sturdy box. Space-saving and easy to setup and use.

*Dimensions: W 260 × L 390 × H 240 mm*

*Material: Plastic  
Made in Europe*

Available from May 2022

## Ball Holder

A clever addition to multiball or service training. Height and swivel adjustable. The ball bag features a sturdy zipper and carrying loop. Capacity for approx. 100 balls (Balls are not included).

*Dimensions: W 320 × L 385 × H 275 mm*

*Material: Metal / Plastic  
Made in Japan*

## Ball and Towel Box

Six-sided, foldable box from sturdy cardboard. Ideal as towel box or ball receptacle for multi-ball training (Balls are not included).

*Dimensions: W 300 × L 450 × H 760 mm*

*Material: Carton  
Made in Europe*

Available from May 2022

## Towel Box

Foldable box made from wood. Best combined with Butterfly umpire table. Usable as ball or towel box.

*Dimensions: W 320 × D 320 × H 680 mm*

*Weight unpacked: 8 kg*

*Material: MDF Wood  
Made in Germany*

## Net Gauge

*Patented net ruler (100 g)*

## Umpire Table

Durable, space-saving and practical umpire table made from wood. Easily foldable.

*Dimensions: W 320 × L 700 × H 760 mm*

*Weight unpacked: 12 kg*

*Material: MDF Wood  
Made in Germany*

## Surrounds Standard

Practical plug-in system with metal frame. Easy setup, high stability. Corner setup is made easy by Y-stand on one side. New and improved cover for perfect fit.

*Dimensions: W 2.33 × H 0.70 m*

*Material: Metal, Plastic*

*Colors: blue, green*

*Made in India*

## Surrounds Double Bar 70 cm / 90 cm

Practical plug-in system with metal frame. Easy setup, high stability. Corner setup is made easy by Y-stand on one side. New and improved cover for perfect fit.

*Dimensions: W 2.33 × H 0.70 m / W 2.33 × H 0.90 m*

*Material: Metal, Plastic*

*Colors: blue, green*

*Made in India*

## Table Cover

Table protection in play and store configuration. A smart addition to any table that enhances longevity and playability. Durable nylon material with zipper. The cover fits for all table models.

### Which size fits which model?

S = Octet 25, Europa 25

L = Centrefold 25, Space Saver 25, Butterfly hobby tables

*Dimensions size S: W 390 × L 1530 × H 1500 mm*

*Dimensions size L: W 750 × L 1530 × H 1500 mm*

*Material: Nylon*

*Made in India*

Robots

# AMICUS

## Butterfly's best table tennis robots

Made for the highest demands of players, looking for a competent and indefatigable training partner. Lightweight for its size, all Amicus robots are easy to set up and solidly built from durable material. This makes the Amicus robots a popular choice for players, coaches and clubs on all levels. The unique shooting mechanism with 3 rolls can simulate all different levels of spin and provides a realistic training experience. With its practical usability and mobility (a transport bag is provided), Amicus ranks as one of the most capable table tennis robots on the scene.

More info & videos on: [en.butterfly.tt/amicus](https://en.butterfly.tt/amicus)

### *The advantages of all Amicus models:*

- Comfortable to carry, quick to assemble, easy to use
- Weight only about 6 kg
- Amicus transport bag included
- Up to 100 balls per minute
- Compatible with plastic (40+) balls
- 4-level height adjustment
- Sturdy assembly clamp
- Automatic ball collection
- Head with 3 shooting wheels – for variable topspin, backspin, sidespin and no spin or combinations.
- Speed, spin and placement can be edited directly on the control panel / tablet (Prime)
